ECOSYS P5021cdw
COLOUR PRINTER
FOR A4 FORMAT

THE BUSINESS COLOUR PRINTER.

The new ECOSYS entry-level model offers more than you could ask for: Despite its compact design, this economical colour device includes plenty of valuable functions and achieves professional results with a resolution of 1,200 dpi. Features such as the duplex unit for double-sided printing or the direct printing functions (via Wi-Fi and USB host) keep your work running seamlessly. This reliable device is the perfect solution for small offices that set high standards.

- > Up to 21 pages per minute in A4 in colour and b/w
- > 1,200 dpi printing quality
- > Wi-Fi and Wi-Fi Direct as standard*
- > Mobile printing support including AirPrint, Mopria, KYOCERA Mobile Print
- > Compact design with low-noise printing
- > Direct printing from USB flash memory
- > Standard duplex unit for double-sided printing
- > Exceptionally low printing costs in its class

*Only ECOSYS P5021cdw

ECOSYS stands for ECOlogy, ECONomy and SYStem-printing. With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that toner is the only consumable. The modular design concept allows you to add workflow enhancing functions as required. Integrated system software provides long-term cross network compatibility. KYOCERA's long-life components cost you and the environment less.

Environmental print features

Duplex print mode (Double sided printing), N-Up printing mode (N pages on 1 sheet), Toner save mode (Draft print mode), Quiet mode (reduced print speed).

USB Host Interface for USB Flash Memory

Documents can be printed directly from a USB Flash Memory (e.g. USB stick) via the USB host interface. The documents stored as PDF, XPS, TIFF or JPEG are selected directly via the printer's control panel. No computer is required.

PRESCRIBE IIc

With the Kyocera page design and control language PRESCRIBE IIc, even complex graphics, logos and forms (multipart forms) can be created independently on the system and saved and updated in the printer. Consequently, integration into print files no longer applies. They are only accessed as required and therefore relieve the load on the network.

Status Monitor and Command Centre

The Status Monitor shows the current printers condition and gives direct access to the Command Centre for the modification of settings that are not contained in the drivers (e.g. network settings, adjustment of sleep mode or blocking of the control panel).

KYOCERA NetViewer

KYOCERA NetViewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunction units from any Windows® PC and thus provides ideal network administration. It also supports the standardised SNMP protocol.
